Other Skills: MS Office,

Experience/Projects

Vinsys IT Corporate Training

May 2023 – Oct 2023

Java Full-stack Development Training

Delhi, India

- Acquired expertise in **Java 8**, **SQL database management**, and web technologies. Developed proficiency in frontend development using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**. Gained experience with **Spring Boot** and **Spring MVC** for backend development. Enhanced skills in **Angular** for dynamic web application development.
- Project: E-commerce App** - Developed an [E-commerce application](#) focused on enhancing user experience, streamlining the ordering process, and simplifying payment procedures.

Personal Projects/Awards & Achievements

Student Portal

June 2023

Student Resource Website

Technologies: Front-End (HTML, CSS), Back-End (PHP), Database (phpMyAdmin), Deployment (Apache Tomcat, Visual Studio)

- Spearheaded the development** of a student portal to provide easy access to the previous year's exam papers, admit cards, and results, enhancing student engagement and resource accessibility.
- Designed and developed** a responsive, user-friendly front-end interface using HTML and CSS, ensuring a seamless user experience across multiple devices.
- Implemented dynamic back-end functionality** using PHP, enabling efficient handling of user requests, data retrieval, and content management.
- Integrated the database** with phpMyAdmin, ensuring secure and efficient data storage, retrieval, and management.
- Deployed the application** on Apache Tomcat, optimizing its performance for reliability, scalability, and accessibility.
- Troubleshooted and resolved deployment issues**, ensuring smooth application functionality and a flawless user experience.
